

# Targeted Consultation for the Evaluation of the Guidelines on State aid for Environmental protection and Energy 2014-2020 (EEAG)

Fields marked with \* are mandatory.

## Introduction

---

In 2012, the Commission launched the State aid modernisation with the objectives to: 1) foster sustainable, smart and inclusive growth in a competitive internal market; 2) focus Commission's *ex ante* scrutiny on cases with the biggest impact on the internal market; and 3) streamline the rules and provide for faster decisions. In view of these objectives, the Commission has since 2013 revised a number of State aid rules, including the State aid Guidelines for environmental protection and energy (EEAG).

In January 2019, the European Commission announced its intention to prolong seven sets of State aid rules for a period of two years<sup>[1]</sup> and launched a [comprehensive policy evaluation in the area of State aid \("Fitness Check"\)](#). Part of this exercise is the evaluation of the State aid Guidelines for environmental protection and energy to reflect if the current rules are still fit for purpose.

Besides the general public consultation on the fitness check of EU State aid rules, this targeted consultation aims to ask supplementary questions in order to gather stakeholders' views on the implementation of the State aid Guidelines for environmental protection and energy and the provisions applicable to aid for environmental protection (and energy) (Section 7) of the General Block Exemption Regulation (GBER) and to receive insights about potential gaps, overlaps or excessive regulatory burden.

You are kindly invited to reply to a set of 19 Questions. Please make sure you use the save button as you proceed with the questionnaire to avoid losing information that was already inserted - especially in the case of questions with open replies. At the end of the survey you will have an opportunity to provide broader, more general comments and to upload documents, which you consider as relevant.

The Commission will publish an analysis of the results of the Fitness Check and examine possible follow up actions at the beginning of 2020.

[1] For details and state-of-play see the relevant initiatives on the Better Regulation Portal: [State aid – 2-year extension for general block exemption regulation](#); [State aid – 2-year extension for de minimis regulation](#); [Prolongation of state aid rules reformed under the state aid modernisation package expiring end of 2020](#).

## About you

---

For the rules on personal data protection on the EUROPA website, please see [http://ec.europa.eu/geninfo/legal\\_notices\\_en.htm#personaldata](http://ec.europa.eu/geninfo/legal_notices_en.htm#personaldata)

\* Publication privacy settings

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

**Anonymous**

Only your type of respondent, country of origin and contribution will be published. All other personal details (name, organisation name and size, transparency register number) will not be published.

**Public**

Your personal details (name, organisation name and size, transparency register number, country of origin) will be published with your contribution.

Please provide your contact details below.

\* Language of my contribution

- Bulgarian
- Croatian
- Czech
- Danish
- Dutch
- English
- Estonian
- Finnish
- French
- Gaelic
- German
- Greek
- Hungarian
- Italian
- Latvian
- Lithuanian
- Maltese
- Polish
- Portuguese
- Romanian
- Slovak
- Slovenian
- Spanish
- Swedish

\* First name

Gaëtan

\* Surname

Claeys

\* I am giving my contribution as

- Academic/research institution
- Business association
- Company/business organisation
- Consumer organisation
- EU citizen
- Environmental organisation
- Non-EU citizen
- Non-governmental organisation (NGO)
- Public authority
- Trade union
- Other

\* Organisation name

*255 character(s) maximum*

EUGINE – European Engine Power Plants Association

\* Organisation size

- Micro (1 to 9 employees)
- Small (10 to 49 employees)
- Medium (50 to 249 employees)
- Large (250 or more)

Transparency register number

*255 character(s) maximum*

Check if your organisation is on the [transparency register](#). It's a voluntary database for organisations seeking to influence EU decision-making.

033807913798-84

\* Please describe the main activities of your company/organisation/association, if applicable.

*1000 character(s) maximum*

EUGINE is the voice of the European engine power plants industry, representing the leading European manufacturers of this flexible, energy-efficient, reliable and environmentally sound technology. Engine power plants are an optimal solution for both backing-up and generating renewable energy (e.g. with biogas). Cogeneration, the combined generation of power and heat, is a typical engine power plant application providing highest efficiency.

\* Please describe the relevance of State aid rules for you.

*1000 character(s) maximum*

State aid rules have a strong impact on the business case of environmentally friendly energy projects such as gas engines running on biogas or used for high-efficiency cogeneration (on-site combined heat and power production). In other words, gas engines manufactured by EUGINE member companies may further help the EU meet both its renewables & energy efficiency targets if Member States are allowed to provide appropriate support to such forward-looking technologies.

## How would you best describe the nature of your understanding and involvement in matters related to State aid rules?

*1000 character(s) maximum*

EUGINE member companies have a clear view of possible positive/negative impacts of the future state aid rules on the EU energy system and the (non)-achievement of the EU energy & climate targets for 2030 and 2050.

I agree with the personal data protection provisions (see document in link below)

[Protection of your personal data.pdf](#)

## EEAG Targeted Questionnaire

---

Effectiveness:

**In this section, we would like your opinion on the extent to which the State aid Guidelines for environmental protection and energy (EEAG) and the provisions applicable to aid for environmental protection (which include provisions on energy) (Section 7) of the General Block Exemption Regulation (related GBER provisions) have achieved their objectives and delivered results.**

1. Based on your experience, to what extent have the EEAG and the corresponding GBER provisions (e.g. tendering, technological neutrality, market integration) been

effective in:

	To a large extent	To some extent	Not at all	I don't know
- enabling the deployment of renewables while lowering societal costs and reducing the amount of aid needed?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- facilitating the integration of renewable energy into the electricity market?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ensuring financing of support schemes to renewable energy sources, while limiting negative impacts on the competitiveness of EU firms?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ensuring that capacity mechanisms were necessary and cost-effective in providing security of supply and least-distortive to competition and intra-EU trade?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ensuring that capacity mechanisms did not negatively impact the objective of phasing out environmentally harmful subsidies including for fossil fuels?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ensuring that in cogeneration and district heating the most cost-efficient projects could be realised?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain:

*5000 character(s) maximum*

The EEAG and the corresponding GBER provisions have played a positive role in enabling Member States to provide funding for environmentally friendly technologies such as high-efficiency cogeneration (bio)gas engines. Thanks to the existing provisions, there are around 17 000 biogas plants in Europe where a gas engine is converting biogas into renewable electricity and heat. In line with the EU's climate neutrality ambition, biogas and high-efficiency cogeneration should be further developed across Europe.

On the other hand, existing provisions have only be partially successful in limiting negative consequences of capacity mechanisms on the proper functioning of the electricity markets and the electricity system. Any capacity mechanism has its own tailor-made parameters impacting the free competition between technology providers as well as between market operators. This has detrimental consequences for the free price formation on power markets. Moreover, the initial versions of the British and Polish capacity mechanisms, as approved by the European Commission, have shown that public money has been given to coal power plants, which are the least flexible and future-proof technologies. If absolutely necessary, funding from capacity mechanisms should be focused on 'enabling technologies' such as flexible power plants, storage and demand-response resources which are able to balance the grid and thus allowing a greater share of electricity to come from variable renewable energy sources.

To contribute to the EU's energy & climate targets, future EEAG should enable Member States to provide financial support to all kinds of renewable gases and fuels, to be used (among other sectors) in decarbonised power generation applications.

Please continue if necessary:

*5000 character(s) maximum*

2. Based on your experience, have Member States created a level playing field for imported and domestically produced biofuels and/or biomass energy when providing support (for instance by supporting a specific type of domestically produced biofuels and/or biomass energy, but not other types of biofuels and/or biomass energy with similar costs or greenhouse gases emissions)?

- Yes
- No
- Partially
- I don't know

Please explain:

*1000 character(s) maximum*

3. Based on your experience, to what extent has the GBER ensured public support for waste recycling while limiting the amount of aid to the minimum and limiting distortions of competition to the minimum?

- To a large extent
- To some extent
- Not at all
- I don't know

Please explain:

*1000 character(s) maximum*

4. Based on your experience, to what extent has Article 39 GBER allowed aid through financial instruments for energy efficiency measures in buildings while limiting distortions of competition at the level of the financial intermediary and the funds involved?

- To a large extent
- To some extent
- Not at all
- I don't know

Please explain:

*1000 character(s) maximum*

5. Based on your experience, has State aid granted under the EEAG or the GBER generally achieved the relevant climate and environmental protection objectives while maintaining a competitive internal market?

- Yes
- No
- Partially
- I don't know

Please explain:

*1000 character(s) maximum*

6. Based on your experience, has State aid granted under the EEAG or the GBER generally achieved the relevant energy objectives while maintaining a competitive internal market?

- Yes
- No
- Partially
- I don't know

Please explain:

*1000 character(s) maximum*

7. Based on your experience, have there been any unexpected or unintended results from the implementation of the EEAG and the corresponding GBER provisions?

- Yes
- No
- Partially
- I don't know

Please specify:

*1000 character(s) maximum*

8. Are there sectors (at NACE 4 level<sup>[2]</sup>) and products (at Prodcom 8 level<sup>[3]</sup>) which, were included in the list of eligible sectors and products for reductions under section 3.7.2. of the EEAG (c.f. Annex 3 and Annex 5 of the EEAG), but which, according to your experience, were not particularly affected by the financing costs of renewable energy support and therefore were not put at a significant competitive disadvantage?

- Yes
- No
- I don't know

[2] NACE is derived from the French "Nomenclature statistique des Activités économiques dans la Communauté Européenne" (Statistical classification of economic activities in the European Community). It designates the various statistical classifications of economic activities developed since 1970 by the European Union. According to NACE rev.1.1: [http://ec.europa.eu/eurostat/ramon/nomenclatures/index.cfm?TargetUrl=LST\\_CLS\\_DLD&StrNom=NACE\\_1\\_1&StrLanguageCode=EN&StrLayoutCode=HIERARCHIC](http://ec.europa.eu/eurostat/ramon/nomenclatures/index.cfm?TargetUrl=LST_CLS_DLD&StrNom=NACE_1_1&StrLanguageCode=EN&StrLayoutCode=HIERARCHIC)

[3] Production Communautaire list, available at: [https://ec.europa.eu/eurostat/statistics-explained/index.php/Industrial\\_production\\_statistics\\_introduced\\_-\\_PRODCOM](https://ec.europa.eu/eurostat/statistics-explained/index.php/Industrial_production_statistics_introduced_-_PRODCOM) PRODCOM is a survey, with an at-least-annual frequency, for the collection and dissemination of statistics on the production of industrial (mainly manufactured) goods, both in value and quantity terms, in the European Union. The PRODCOM survey is based on a list of products called the PRODCOM list which currently comprises about 4000 headings relating to industrial products and some industrial services. These products are detailed at an eight-digit level.

9. Are there sectors (at NACE 4 level<sup>[4]</sup>) or products (at Prodcom 8 level<sup>[5]</sup>) which, according to your experience, were particularly affected by the financing costs of renewable energy support and therefore were put at a significant competitive disadvantage, but were not included in the list of eligible sectors for reductions under section 3.7.2. of the EEAG (c.f. Annex 3 and Annex 5 of the EEAG)?

- Yes
- No
- I don't know

[4] According to NACE rev.1.1: [http://ec.europa.eu/eurostat/ramon/nomenclatures/index.cfm?TargetUrl=LST\\_CLS\\_DLD&StrNom=NACE\\_1\\_1&StrLanguageCode=EN&StrLayoutCode=HIERARCHIC](http://ec.europa.eu/eurostat/ramon/nomenclatures/index.cfm?TargetUrl=LST_CLS_DLD&StrNom=NACE_1_1&StrLanguageCode=EN&StrLayoutCode=HIERARCHIC)

[5] Production Communautaire list, available at: [https://ec.europa.eu/eurostat/statistics-explained/index.php/Industrial\\_production\\_statistics\\_introduced\\_-\\_PRODCOM](https://ec.europa.eu/eurostat/statistics-explained/index.php/Industrial_production_statistics_introduced_-_PRODCOM)

10. Based on your experience, have the minimum own contributions of the full electricity surcharges of 15 % of the full renewable surcharge, and 4 % and 0.5 % of the Gross Value Added of the undertaking concerned (see points 188 and 189 of the EEAG) been adequately set to ensure a sufficient financing basis for the underlying energy policy?

	Too high	Too low	Adequate	I don't know
15% of the full renewable surcharge	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
4% of the Gross Value Added	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
0.5% of the Gross Value Added	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please substantiate your answer:

*1000 character(s) maximum*

11. Based on your experience, have the reductions in electricity surcharges given to energy-intensive users (EIUs) created market distortions?

- Yes
- No
- I don't know

Please substantiate your answer:

*3000 character(s) maximum*

12. Based on your experience, what impact have reductions granted to energy intensive users had on renewable energy charges and other relevant charges paid by non-energy intensive industrial consumers and households?

- Excessive
- Adequate
- I don't know

Please substantiate your answer:

*3000 character(s) maximum*

13. Based on your experience, has the higher aid intensity allowed under point 78 of the EEAG been adequate to address the double market failure linked to the higher risks of innovation and the environmental aspects of the project without creating unnecessary distortions of competition?

- Yes
- Not adequate (too low aid intensity)
- Not adequate (too high aid intensity)
- I don't know

Please explain:

*1000 character(s) maximum*

Efficiency:

**In this section, we would like to know your opinion about the efficiency of the EEAG and the related GBER provisions.**

14. Based on your experience, to what extent are the different compatibility conditions and methodologies included in the EEAG and the GBER related

provisions sufficiently clear and easy to apply:

	Yes	No	I don't know
- in general terms?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the methodology for calculating eligible costs for investment aid to go beyond standards, in the absence of standards and early adaptation to standards under Article 36 of the GBER and points 73 to 75 of the EEAG?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the criteria for limiting bidding processes for renewables to specific technologies (see EEAG point 126 and GBER Article 42.3)?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the methodology for calculating eligible costs for investment aid to renewables and co-generation (CHP) projects?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the methodology to assess proportionality of aid based on levelised cost of energy (see point 131 of the EEAG and Article 43, paragraphs 5 and 6 of the GBER)?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the provisions for demonstration projects (as defined in point 19 paragraph 45 of the EEAG) and for the new and innovative renewable energy technologies (see Article 42.4 of the GBER)?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the methodology to assess eligible costs for energy-efficiency investment aid under Article 38 of the GBER?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the compatibility conditions (in particular the full passing on, the leverage condition, the conditions imposed on the financial intermediaries) for energy efficiency projects in buildings (see paragraphs 4 to 10 in Article 39 of the GBER)?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the compatibility conditions for aid for Resource Efficiency (section 3.5.1 of the EEAG read in combination with section 3.2 of the EEAG)?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the compatibility conditions (in particular the "state of the art" requirement, the "polluter pays principle" and the "treatment of the waste of others") for waste management projects under 47 of the GBER and section 3.5.2 of the EEAG?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- as regards the methodology for calculating eligible costs for waste management projects under Article 47 of the GBER and section 3.5.2. of the EEAG?	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- Other (please specify)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please explain:

*5000 character(s) maximum*

15. Based on your experience, how do administrative costs incurred by the aid application under the EEAG and GBER related provisions compare with the actual amount of compensation received?

Please rate from very low (administrative costs representing less than 1% of the actual amount of compensation received) to very high (administrative costs representing more than 20% of the actual amount of compensation received):

	Very low (less than 1%)	Low (between 1% and 5%)	Intermediate (between 5% and 10%)	High (between 10% and 20%)	Very high (more than 20%)	I don't know
Proportion of administrative costs in total actual amount of compensation received	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please explain:

*1000 character(s) maximum*

Relevance:

16. Based on your experience, have the EEAG and GBER adequately addressed recent market developments or technological changes such as:

	Yes	No	Partially	I don't know
Storage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Zero subsidy bids	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Repowering	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Renewable energy power purchase agreements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Renewable self consumption and/or active consumers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Citizens energy communities and/or renewable energy communities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hydrogen, synthetic fuels and low carbon gas	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Alternative fuel infrastructure (publicly accessible or dedicated infrastructure)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Low or zero emission vehicles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Carbon Capture, Storage and/or Utilisation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nearly-zero-energy buildings	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Smart energy technologies (e.g. in buildings)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Energy services (e.g. energy performance contracting)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Advanced technology for water reuse (e.g. membranes and UV)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please specify)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Please explain:**

*5000 character(s) maximum*

In view of the EU's climate neutrality ambition, it is key that Member States are allowed to provide financial support to carbon-neutral and carbon-free fuels such as respectively biogas or renewable hydrogen from power-to-gas installations (electrolysis). Such renewable gases or liquid fuels will play a key role for decarbonising power generation. EEAG should therefore allow Member States to appropriately incentivise the production of these renewable gases or liquid fuels.

17. To what extent do recent economic developments – such as the falling renewable energy costs and possible changes to trade intensity and electro intensity of the sectors concerned – impact the relevance of the rules which apply to reductions for energy-intensive users (EIUs)?

	To a large extent	To some extent	Not at all	I don't know
Falling costs of renewable energy producers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Changes to the trade intensity of the sectors listed in Annex 3 and 5 of the EEAG	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Changes to the electro intensity of the sectors listed in Annex 3 of the EEAG	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Other (please specify)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

**Please explain:**

*3000 character(s) maximum*

**Coherence:**

**In this section, we would like to know your opinion on the extent to which the EEAG and the related GBER provisions are coherent with other EU policies and legislations.**

18. Based on your experience, to what extent are the EEAG and the related GBER provisions coherent with relevant EU policies and legislation such as:

	Yes	No	Partially	I don't know
<a href="#">Renewable Energy Directive</a>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<a href="#">Electricity Directive [6]</a>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<a href="#">Electricity Market Regulation [7]</a>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
<a href="#">Risk-preparedness Regulation [8]</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">EU ETS Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Industrial Emissions Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Alternative Fuels Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Energy Efficiency Directive</a>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<a href="#">Energy Performance of Buildings Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">EU Waste legislation</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Water Framework Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Air Quality Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Birds Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">Habitats Directive</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<a href="#">ERDF Regulation</a>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Other (please specify)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please explain:

*5000 character(s) maximum*

The electricity market regulation intends to reduce the use of capacity mechanisms to last resort cases and to increase the flexibility of the energy system – on both issues, EEAG may need to be revised to make sure that capacity mechanisms only support flexible resources such as flexible generation with gas engines, storage solutions or demand-side response.
